Problem The CEOS development group will be installing the IMS Web Gateway on the machine "ceoseng". In order to perform this installation, a user account called "imswww" is required. Currently there is no such user account on the machine "ceoseng". In addition to the user account "imswww" being created, it will also be required that a Web Server run on the machine "ceoseng". Permission to run this Web Server is being requested.			
Proposed Solution Creation of user account "imswww" on machine "ceoseng". Grant permission to execute a Web Server on machine "ceoseng".
